BUSINESS REVIEW

Company Results

The Company's sales for nine months declined by 19%, due to slow down of the auto industry on account of sharp decline in the economy of the country.

The Company recorded decrease in Operating Profit of Rs. 11 million due to recognition of expected credit loss of Rs. 900 million on loan to its subsidiary, Hi-Tech Alloy Wheels Limited, partly offset by gain on disposal of Korangi factory land & building for a consideration of Rs. 1,053 million.

Markup expenses declined on account of partial debt retirement from the sale proceeds of above fixed assets. Consequently, Profit before Tax has improved by Rs. 57 million over previous period. Profit after Tax has therefore increase by 22 million. Therefore, current nine months period has reported earnings per share of 18 paisa, as against previous period's 10 paisa per share.

Group Results

The group has recorded sales of Rs. 3,032 million for 9 months period ended March 31, 2024, registering a decline of Rs. 698 million over previous period. The decrease is mainly due to downturn in auto industry on account of unstable economy, higher inflation, rupee devaluation and rising prices of automobiles.

During the period, the company has booked impairment of Rs. 750 million on the assets of its subsidiary, Hi-Tech Alloy Wheels Limited, due to inordinate delay in commencement of its operations.

Consolidated accounts registered a Profit before Tax of Rs. 85 million, as against previous period's Loss before Tax of Rs. 552 million on account of gain on disposal of assets. Loss after Taxation was Rs. 193 million, compared to Loss after Tax of Rs. 636 million in the previous period.

AUTOMOTIVE INDUSTRY

(a) Passenger Cars / Light Commercial Vehicles (LCVs)/Jeeps (SUVs)

Sales of Cars, LCVs & SUVs for the nine months period ended March 31, 2024 declined from 110,898 units to 69,078 units (-38%) over corresponding period.

(b) Heavy Commercial Vehicles

Heavy vehicle volumes declined from corresponding period's 3,382 units to 1,888 units, registering a decrease of 38%.

Both the above decreases adversely impacted Company's sales as shown below.

(c) Tractors

The tractor industry's sales increased by 66% over previous period, registering sales of 35,199 units in 2024 (2023: 21,233 units), on account of growth in Al-Ghazi Tractor volumes by 62% and Millat Tractors by 68%.

COMPANY'S SALES PERFORMANCE

The overall sales of the group for the nine months declined by 19% over the corresponding period. A product-wise analysis

	Rs. in millions					
Products	Sales in nine months ended 31st March					
	2024 2023 % Change					
Exhaust Systems	1,862	2,241	-17%			
Sheet Metal Components	1,121	1,145	-2%			
Radiators	49	344	-86%			
Total	3,032 3,730 -19%					

Comments on performance of various product groups are given below:

(a) Exhaust Systems

Sales of exhaust systems declined by 17% on account of decline in sales of all major customers.

(b) Sheet Metal Components

Sales of Sheet Metal Components declined by 2% on account of decline in sales of all major customers.

(c) Radiators

Sales of radiators decreased by 86%, reflecting decline in sales of pickups and vans, as well as aftermarket sales.

PROSPECTS

The economy and the industry has been facing challenges of high inflation, low growth, paucity of foreign exchange, unprecedented depreciation of Pak Rupee, and hike in interest rate on borrowings.

As we set our sights on the future of auto industry, we approach it with a sense of cautious optimism. While the economic situation undergoes a realignment, the management of the Company remains confident that the operations of the business will remain sustainable.

26. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in orderly transaction between market participants at the measurement date.

The Company classifies fair value measurements of its investments using a hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly. Level 3: Inputs for the asset or liability that are not based on observable market date (i.e. unobservable inputs).

26.1 Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

2. BASIS OF PREPARATION

2.1 Statement of compliance

The condensed interim consolidated financial information has been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS Standards, the provisions of and directives issued under the Companies Act, 2017 have been followed.

This condensed interim consolidated financial information does not include all the information and disclosures required in the annual financial statements and should therefore be read in conjunction with the annual audited consolidated financial statements of the Parent Company as at and for the year ended 30 June 2023. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last financial statements.

2.2 Basis of measurement

This condensed interim consolidated financial information has been prepared on the historical cost convention, except for certain investments which are stated at fair value and provision for staff gratuity which is stated at present value.

2.3 Functional and presentation currency

The condensed interim consolidated financial information is presented in Pak Rupee which is also the functional currency of the Parent Company and rounded off to the nearest rupee unless otherwise stated.

Notes to the Condensed Interim Consolidated **Financial Statements (Un-audited)**

For the nine months period ended 31 March 2024

24 Key estimates and judgments

The preparation of the condensed interim consolidated financial information in conformity with accounting and reporting standards as applicable in Pakistan requires management to make estimates, assumptions and use judgments that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Revisions to accounting estimates are recognised prospectively commencing from the period of revision.

In preparing the condensed interim consolidated financial information, the significant judgments made by the management in applying the Parent Company's accounting policies and the key sources of estimation and uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 30 June 2023. The Parent Company's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 30 June 2023.
