Review of Operations and Outlook

In 2026, the Modaraba recorded turnover of Rs. 1,054.09 million compared to Rs. 1,247.44 million in 2025, a decline of approximately 15.5%, in a challenging and volatile business environment marked by subdued market activity, pricing pressures and rising input costs.

The Gross Profit (GP) decreased from Rs. 289.92 million in 2025 to Rs. 229.18 million in 2026 and the net profit stood at Rs 39.50 million compared to Rs 95.45 million last year, mainly due to lower gross profit on reduced sales and lower other income, as the previous year included a one-off liability write-back of Rs. 15.49 million following a favorable judgement by the Honorable Sindh High Court. This was partly offset by lower operating expenses and financial charges.

The Board has decided to distribute a profit of Rs. 10/- per certificate. The management remains focused on strengthening business volumes, improving operational efficiencies and managing costs, and is confident about the future as economic reforms and stabilization measures are expected to gradually support market recovery.
